Outcome	The outcome of a quiz and food stall making competition is the overall development of students in both intellectual and practical areas. Through the quiz, students enhance their knowledge, improve analytical thinking, and develop a healthy competitive spirit. The food stall making activity helps students learn creativity, planning, and basic entrepreneurial skills such as budgeting, pricing, and customer handling. It also improves teamwork, communication, and coordination among participants. Students gain confidence, leadership qualities, and time management skills while managing the stall and interacting with others. Overall, such activities promote practical learning and contribute to the holistic development of students.

SUMMARY OF THE EVENT:

1. Objective of the Event:

The main objective of the quiz and stall making activities is to enhance students' knowledge and awareness while encouraging creativity and innovation. These activities help develop teamwork, coordination, and communication skills among students. They also provide practical exposure by improving presentation and marketing abilities, while boosting confidence and active participation. Overall, such events create an engaging learning environment and promote all-round development of students.
